German Quality - Made in China

The PSN-Network

We Overcome Boundaries 合作

The company structure in Germany and China offers enormous cost benefits, leading to savings of up to 30 % when compared with European costs.

As a tool supplier with its own plants in China, and a German Headquarter, PSN is your partner for high-quality tools and injection-moulded products. In addition to excellent quality, our speciality is achieving short delivery times and personal service.

Our PSN sites in China also share the German commitment to quality. We therefore guarantee professional project management and comprehensive service to the German standards.

Thanks to especially experienced and competent staff, a network with proven specialists, and the competitive structure of our companies in Germany and China, we can proudly list numerous, well-known customers in Europe.

Of course both the PSN sites and the network partners have ISO 9001 and 14001 certification; further audited by renowned international major clients.

Lieferantenbewertung

Sehr geehrte Damen und Herren,

unser Unternehmen ist nach ISO 9001:2008 zertifiziert. Wir haben uns damit zu einem hohen Qualitätsniveau verpflichtet. Dies wird erreicht, dass unsere Lieferanten nach DIN EN ISO 9001:2008 zertifiziert sein müssen und langfristig eine Zertifizierung nach ISO 9001:2008 erhalten können. Die Bewertung Ihres Unternehmens wurde aufgrund der nachstehenden Kriterien für den Zeitraum Januar bis Dezember 2013 nach VDA verfahren 10 durchgeführt.

Die Bewertung erfolgt nach folgenden Kriterien:

A-Lieferant

Zu dieser Einstufung gratulieren wir sehr und hoffen, dass Sie weiterhin alles unternehmen um unsere anspruchsvollen Qualitätsanforderungen zu erfüllen.

Sollten Sie zu unserer Bewertung noch Fragen haben, stehen wir für eine Klärung gerne zur Verfügung.

Mit freundlichen Grüßen
AZ Auslieferung und Zusatzt
GmbH & Co. KG

Quality 质量

We make high demands on ourselves. These are backed up by the firm commitment to offering products and services which completely meet the requirements of our customers, or exceed them, and ensure their satisfaction. All the processes are managed and controlled directly by us. A wide range of awards shows our compliance with the quality standards in practice. Furthermore, we produce for you in China in accordance with German norms and to the highest quality standards.

At PSN, you get everything from one source:

Design

- Mould design
- Mould flow & feasibility studies

Parts design and design amendments

- Mould design and construction
- Mould design and construction up to edge length 2500mm x 2000mm

Prototype tools

- Project management
- Communication in German and English
- Complete project management from tendering to working-in on serial production provided by project managers in Germany and China working in close cooperation

Technical service

Tool modifications and guarantee services through qualified German and European partners supervised by PSN Mould, material and parts logistics On request, our experienced team looks after the handling of all the logistics required in the course of a tool project: from granulate logistics to dispatch of samples to professional forwarding of tools by sea or air freight, including the entire customs clearance process – one thing less for you to worry about!

**We work to german standards and share the
world-famous German commitment to quality.**

Security 安全

We are characterised by absolute delivery reliability: With three-shift, 7 days a week manufacturing in our plants in China, we can guarantee the shortest delivery times.

We have many years of experience with freight forwarding and customs handling and are thus able to offer you speedy delivery – just in time.

We offer you security:

- With specially-selected, audited and certified toolmakers
- With a German limited liability company, German legislation and contracts
- With guarantees and German service partners
- With delivery reliability
- With our many years of experience as a family company (100% private owned in both Germany and China)
- With clear communication: We also speak English in China!
- With many renowned and satisfied customers

Avail of savings potential by procuring tools in China from a reputable partner who works transparently and reliable for you.

In China:

We look after you comprehensively on site in China. PSN would be pleased to organise your trip and guide you, if you so wish, in booking flights and hotels and in transfer and visa matters. Therefore we take care of all the necessary details for site visits, for example, when you come to buy-off your tools at the tool manufacturers.

In Europe:

PSN is always there for you as a service partner for repairs, mould modification and optimisation. Our central location in the Rhine Main area and our project management located in Franconia, an area with a long history in plastics, permit short reaction times and optimum service.

When it comes to modifications or guarantee matters, you can rely on certified partners supervised by PSN. For service questions you can bank on our long years of experience.

If you have requests, or require support, we are always there for you:

**We offer you a complete service in China and Europe,
from your initial inquiry to production series approval and beyond.**

References 样本

PSN is a German-Chinese family company which has been producing tools in the area of plastics injection moulding since 2005. We have brought the German commitment to quality and the technical experience from over 40 years of tool design and construction in Germany to China, and trained a new generation of toolmakers and project managers. The company founders, Fred Endres, as an experienced tool design and construction engineer, and his wife, Jingyu Endres, have made their distinctive mark on the company. PSN has many customers who have been loyal to us for years and who value our work very highly.

We have extensive experience:

- With grained and high-gloss interior parts for cars and trucks
- With exterior parts for cars and trucks
- With assembly groups for cars and trucks
- With white goods
- In the area of white goods and car interiors, we have produced, for example, complete tool sets for assembly groups and optimised and adjusted these up to series-production readiness.

Parts made with our tools are used by:

- | | |
|------------|------------------|
| • BMW | • Audi |
| • Westmark | • Mahle |
| • VW | • Volvo |
| • Toyota | • Renault Trucks |
| • Porsche | • GM |
| • Jaguar | • ZF-Boge |
| • Daimler | • Skoda |
| • Ford | • Valtra |
| • Fendt | • EvoBus |
| • Nissan | • Elica |
| • Opel | |

**Benefit from our long experience and
place your faith in us, as do our prestigious customers.**
